

TTI

Service Quality Innovation

Your Total System Cleanliness Experts Made in the USA – Shipping in Days

TTI is a leading producer of world-class hydraulic filter elements, desiccant breathers, filter housings, and more.

PowerGuard™ Filter Elements

TTI's PowerGuard filter elements utilize our proprietary dual phase media to provide superior dirt-holding capacity and lower pressure drops – all at the same efficiencies as our competitors.

- Lead times of **LESS THAN TWO WEEKS**
- Longer filter life resulting in reduced maintenance costs and less machine downtime
- Water absorptive, static dissipative, insoluble removal, and wire mesh media options available

SmartMedia™ Filter Technology

TTI's patented SmartMedia technology utilizes parallel flow to create unique performance enhancements to existing filter elements.

SmartFlow elements are ideal for systems with cold start-ups and offer exceptionally low pressure drops for most other hydraulic, lubrication, or bulk fluid transfer systems.

- Up to 35% Longer Service Life
- Up to 35% Better Pressure Drop
- Drop-In Ready Solution for Existing Housings
- Patent-Protected Design

COLORED MEDIA USED TO SHOW PATENT. NO COLORED MEDIA IS USED IN MANUFACTURING.

PowerBreather™ Desiccant Breathers

TTI's PowerBreather desiccant breathers utilize cutting-edge silica gel and product design to provide significant improvement over OEM breathers and dust caps.

- **Ships in 3 DAYS OR LESS**
- **20-30% longer service life**
- **Reduced maintenance costs and more consistent performance**
