

Service • Quality • Innovation

TTI is a leading producer of world-class filter elements, desiccant breathers, filter housings, and more.

PowerGuard™ Filter Elements

TTI's PowerGuard filter elements utilize our proprietary DuoGlass media to provide superior dirt-holding capacity and lower pressure drops — meeting or exceeding beta 1000 efficiency.

- **Longer filter life resulting in reduced maintenance costs and less machine downtime**
- **Water absorptive, static dissipative, insoluble removal, and wire mesh media options available**
- **Lead times of 10 DAYS OR LESS**

SmartMedia™ Filter Technology

TTI's patented SmartMedia technology utilizes parallel flow to create unique performance enhancements to existing filter elements.

SmartFlow elements are ideal for systems with cold start-ups and offer exceptionally low pressure drops for most other hydraulic, lubrication, or bulk fluid transfer systems.

- **Up to 35% Longer Service Life**
- **Up to 35% Better Pressure Drop**
- **Drop-In Ready Solution for Existing Housings**
- **Patent-Protected Design**

COLORED MEDIA USED TO SHOW PATENT. NO COLORED MEDIA IS USED IN MANUFACTURING.

PowerBreather™ Desiccant Breathers

TTI's PowerBreather desiccant breathers utilize our proprietary DuoGlass media and PowerGel combined with cutting-edge product design to provide significant improvement over OEM breathers and dust caps.

- **20-30% longer service life**
- **Reduced maintenance costs and more consistent performance**
- **Adapter kits for better handling practices**
- **Lead times of 3 DAYS OR LESS**

PowerGuard™ Housings

TTI's filter housings exceed industry quality and service life standards – offering robust construction, multiple gauge port options, and ergonomic lid design for the safety of maintenance professionals.

- **Unmatched quality control**
- **Space-saving, stainless steel designs**
- **Lead times of LESS THAN 1 WEEK**
